Process Safety Symposium (JE-PSS) - A WCCE10 Joint Event

CCPS, EPSC, ISC, MKOPSC, and WPLP organize a joint Process Safety Symposium as part of WCCE10. This will be a 2-day single track joint event. Why do incidents keep happening despite efforts on regulations, best practices and management systems? What are the trends for process safety performance as a whole? What are the causes behind our failure to learn?

The scope of this joint process safety symposium is to have a dialogue on this call for action, and raise awareness and understanding on the importance of process safety amongst all stakeholders.

The focus will be to foster discussion among scientists, professors, engineers, industrial professionals by sharing process safety lessons learned, process safety leadership and management best practices, and highlight the critical need to improve process safety education and competence.

Presentations and posters will exemplify recent development in these areas to raise the bar on process safety performance globally.
